Who is covered? Note: City/county paid sick time laws cannot cover state government workers, and city, county, and state paid sick time laws cannot cover federal government workers.	Workers who, in a particular week, perform at least 2 hours of work within the geographic boundaries of Oakland and who are entitled to minimum wage under California law are covered.
Can sick time be used to care for loved ones?	Yes: children; parents; legal guardian or ward; grandchildren; grandparents; spouses; registered domestic partners; siblings; and, if a worker has no spouse/registered domestic partner, a designated person of the worker's choice.
How is "child" defined?	Legal guardians or wards; children from biological, adoptive, foster care, and step-relationships; children of a domestic partner; or the child of a worker standing in loco parentis to the child.
Can sick time be used for specific "safe time" purposes (related to domestic violence, sexual assault, or stalking)?	No, not beyond what is provided under the State's paid sick time law.
Can sick time be used under the law to bond with a new child and/or deal with a family member's death? Note: It is possible that other laws, such as the Family and Medical Leave Act or a state equivalent, could provide eligible workers with unpaid leave for these purposes.	No.
Can sick time be used when a worker's place of work or child's school/place of care is closed by public health officials for a public health emergency?	No.
Rate at which workers earn paid sick time?	1 hour for every 30 hours worked.
Do workers have different sick time-related rights based on the size of their employer? If so, based on what employer-size threshold(s)?	Yes. Workers in businesses with 10 or more workers can earn up to 72 hours of paid sick time. Workers in businesses with fewer than 10 workers can earn up to 40 hours of paid sick time. Note: The enforcing agency has interpreted the law to cap how much paid sick time can be earned—but not on an annual basis. Once a worker reaches his or her earnings cap (i.e., banks the maximum amount of earned sick time as indicated in the chart) and uses paid sick time, the worker once again begins to earn paid sick time back up to this same cap.
