Also, in November 2012, the voters of Long Beach, California approved a measure to guarantee a living wage and paid sick time to certain hotel workers in the city. Under the law, hotels with 100 or more rooms are required to pay workers a minimum of \$13 an hour (adjusted for increases in the federal minimum wage or cost of living) and allow workers to earn a minimum of 5 paid sick days a year. For the statewide paid sick time laws: can cities in the state pass paid sick time laws that are broader than the state law?	No, except that Montgomery County's paid sick time law (which pre-dated the statewide law) remains valid and in effect. Local governments can still pass sick time laws covering their own workforces.	Not explicitly addressed in the paid sick time law	Although this Act does not explicitly address local authority to pass a paid sick time law, a separate Michigan law already preempted—or prohibited—cities from passing their own sick time laws.

After a comprehensive paid sick time ballot initiative qualified to go to voters in the November 2018 election, the Michigan Legislature bypassed voters on September 6, 2018, and passed the Michigan Earned Sick Time Act itself. However, the Legislature later severely weakened the law in the lame duck session (a move that would have not been possible if voters passed the initiative themselves), renaming it the Paid Medical Leave Act. Governor Rick Snyder approved the amended law on December 13, 2018. The law will take effect on March 29, 2019. Due to the Legislature's efforts to frustrate the ballot initiative process, it is possible that this weakened law could be subject to litigation. The originally passed law was more universal in coverage, while the amended law constricts both coverage and application of the law. A Better Balance will share any news about the Michigan law as it develops.

For the statewide paid sick time laws: can cities in the state pass paid sick time laws that are broader than the state law?	N/A	No. The Oregon law preempts—or prohibits—cities from passing their own paid sick time laws. However, in response to Portland's more generous paid sick time law (in effect when the state bill was passed), the statewide paid sick time law requires that employers located in Portland with at least 6 workers (anywhere in Oregon) must provide paid sick time to their workers. Additional Notes	For more information, see http://www2.oaklandnet.com/government/o/CityAdministration/d/MinimumWage/index.htm .	Oregon's Legislature passed a statewide paid sick time law on June 12, 2015, and the law went into effect on January 1, 2016. The law preempts—or prohibits—local governments from passing paid sick time laws. As a result, Eugene's paid sick time law—passed in July 2014 and originally scheduled to go into effect on July 1, 2015—did not take effect. On the other hand, Portland passed a paid sick time law in March 2013, and it went into effect on January 1, 2014, prior to passage of the statewide law. Although Oregon's paid sick time law blocked localities from passing paid sick time laws and preempted Portland's law, the Portland law influenced a key provision of the statewide law. As described in this chart, the employer size threshold for providing paid sick time is lower for employers who are located in Portland (including maintenance of any office, store, restaurant, or establishment in the city). As described in the chart, an employer located in Portland that employs at least six workers anywhere in Oregon must provide its workers with paid sick time, and smaller employers located in Portland must provide unpaid sick time. For employers who are not located in Portland, the size threshold for providing paid sick time is 10 or more workers (with smaller employers providing unpaid sick time). Eugene and Portland have been removed from this comparison chart. For more information about Oregon's sick time law, see http://www.oregon.gov/BOLI/TA/pages/index.aspx .
